Hi GuItArMaNiAcS, I take some time to transcribe this one, I hope all of you know this song, is a quite hard, complex, the rhythms, because there are to many parts that be too fast and I think this way could be better to you.

There are to many parts that repeats the rhythms, so I indicate that parts. See the tablature explanation and the rhyth, explanation first.
 A note about the PM (palm mute), they're indicated below the tab.

Please any mistake or misunderstood thing, or just to say hello, don't hesitate to write to me;) C-ya in the future.

Intro: Play the 12's like harmonics or muffled strings.

|---| |---| |---| |---| |---| |---|

- - -

Chorus II:

SOLO (Gtr 2)

SOLO:

Play the same Rhythm...

Note: On the slides, in this part, Nuno play very fast, in fact he does an ornament note.
 The ornament notes are the 14 and the 17, when he plays the slides.
 The idea is to play that ornaments as fast as possible, like they doesn't exists.
 Anyway, I mark the ornaments with a 'k'.

Intro: II:

Notice that the 2nd note of the sextuplet is a eighteen rest.

sextuplets throughout (with no rest!)
