

# Falcão - Black People Car (Fuscão Preto)

Tom: F  
Intro: F C7 Bb C Bb Am C F

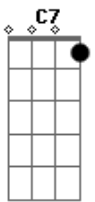

Speak me who she was sight with other  
In black people car around city roading  
Well dressing identic lady of the night  
Smelling drink and smoking without stopping  
My God of the sky say there is a big lie  
If it's true try to clear for a please  
From there to little I myself say the car  
And two together if breaking of love  
Black people car, you are made steel  
Made my chest in many pieces  
Still learning quick to kill  
Black people car, with your noise bad all  
My castle so good and pretty  
You did to pull down (intr.)
