

Fall Out Boy - Jet Pack Blues

```
Tom: G
I got those jet pack blues
Just like Judy
The kind that makes June feel like September
I'm the last one that you'll ever remember
And I'm trying to find that peace of \mbox{\em mind}
Behind these two white highway lines
When the city goes silent
The ringing in my ears gets violent
She's in a long black coat tonight
Waiting for me in the downpour outside \begin{tabular}{lll} Em & C & G \end{tabular}
She's singing "Baby come home" in a melody of tears \begin{tabular}{ll} Em & C & G \end{tabular}
While the rhythm of the rain keeps time
And I remember "Baby, come home"

D Em G
I remember "Baby, come home"
I remember "Baby, come home"

D Em G
I remember "Baby, come home"
I've got those jet pack blues
Fight off the light tonight and just stay with me
Honey, don't you leave
Don't you remember how we used to split a drink?
It never mattered what it was
I think our hands were just that close
```
