

## Fall Out Boy - Our Lawyer Made Us Change The Name Of This Song So We Wouldn't Get Sued

```
(verse 2) "brothers and sisters..."
   (intro lead)
                                                                (verse 2 cont.) "were friends when..."
(intro rhythm)
                                                                (pre chorus rhythm) "it's just past..."
(verse 1) "brothers and sisters..."
                                                                (pre chorus lead) "it's just past..."
(verse 1 cont. rhythm) "we will leave you..."
                                                                (pre chorus rhythm cont.)
(pre chorus rhythm) "it's just past..."
                                                                (chorus)
(pre chorus lead) "it's just past..."
                                                                (chorus cont.)
(pre chorus rhythm cont.)
                                                                (interlude rhythm)
(chorus)
                                                                (interlude lead)
(chorus cont)
                                                                (interlude end)
(chorus cont)
                                                                (after interlude) "were only liars..."
(pre verse) (palm mute)
                                                                (ending) "were only liars..."
```
