

# Fallulah - Use It For Good

Tom: A

m

Intro: Am

Stakes

You stack them so high

I collect flakes

And I watch them fly

[Refrão]

Why don't you take it

And use it for good?

Why don't you take what it is that you have

And put it where I think you should?

Offer me shelter  
Offer me a home

Where we can sit and sit and sit

And never be alone

[Refrão]

Why don't you take it

And use it for good?

Why don't you take what it is that you have

And put it where I think you should?

[Ponte]

Use it for good if you know that you can

Use it for good if you know that you can

Pick up the stones, they are safe in your hands

Am

Before we both fall with nowhere to land

Use it for good if you know that you can

Use it for good if you know that you can

Pick up the stones, they are safe in your hands

Before we both fall with nowhere to land

Breaks

We both have survived

I have made you scared

With all my goodbyes

[Refrão]

I'm gonna take it

And use it for good

I'm gonna take what I have and put it

Exactly where you think I should

Let's get a sublet  
With a dog and a cat

Where we can sit, sit, sit

And drive each other mad

[Refrão]

Why don't you take it

And use it for good?

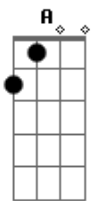

Why don't you take what it is that you have

And put it where I think you should?
