

Far Cry 5 - Build A Castle (Choir Version)

tom:

Intro: Am Em Am

[Primeira Parte]

Gonna build a castle, gonna build it high

Gonna build it brick by brick, and stone by stone

Til it reaches it up to the sky

When the sun goes down and the wind gets cold

We'll be warm inside

The storm will keep on brewing

But we'll have a place to hide

Oh oh, the voice don't lie

We're gonna be safe and sound tonight

Oh oh, the strong don't cry

Gonna open up the door

When the morning light shines in

When the light shines in

[Segunda Parte]

Gonna build a palace, gonna build it grand

Gonna build it floor by floor

And wall by wall with our hearts and with our hands

When we step outside into the breeze

We'll know our commands

We'll walk into the garden

And we'll live upon this land

Oh oh, the voice don't lie

We're gonna be safe and sound tonight

Oh oh, the strong don't cry

Gonna open up the door

When the morning light shines in

When the light shines in

[Terceira Parte]

Gonna build a fortress, gonna build it strong

Gonna build it bolt by bolt, and plate by plate

Gonna build it all day long

We're gonna make it through the winter snow

Cause we know right from wrong

Our house will still be standing

When the world is all but gone

Oh oh, the voice don't lie

We're gonna be safe and sound tonight

Oh oh, the strong don't cry

Gonna open up the door

When the morning light shines in

When the light shines in

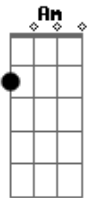

When the light shines in

When the light shines in

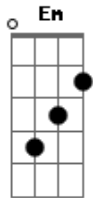

When the light shines in

When the morning light shines in
