

Far Cry 5 - Let The Water Wash Away Your Sins

tom:

Intro: G

[Primeira Parte]

If your soul has grown weary
And your heart feels tired
Let the water wash away your sins
And if the snow begins to fall
And you can't find the fire
Let the water wash away your sins

If the night time lasts forever
But the days are cruel and mean
Let the water wash away your sins
And you thought one day you'd be happy
If you held in all your screams
Let the water wash away your sins

[Refrão]

Let the water wash away your sins
Let the water wash away your sins
Now that this whole world is ending
A new world begins
Let the water wash away your sins

[Segunda Parte]

If you spent your whole life working
For world that feeds on doubt
Let the water wash away your sins
And those banks keep getting bigger
While your pockets empty out
Let the water wash away your sins
And if all the thieves and liars
Have been knocking at your door
Let the water wash away your sins

And they said they'd feed your family

And you believed what they swore
Let the water wash away your sins

[Refrão]

Let the water wash away your sins
Let the water wash away your sins
Now that this whole world is ending
A new world begins
Let the water wash away your sins

[Terceira Parte]

If you thought that there was a heaven
But you can't find the proof
Let the water wash away your sins
And you can see your brothers marching
But you can't speak your truth
Let the water wash away your sins
If your mother was a screamer
And your father ruled with fists
Let the water wash away your sins
And if you're thinking 'bout the highway
And you're looking at your wrists
Let the water wash away your sins

[Refrão]

Let the water wash away your sins
Let the water wash away your sins
Now that this whole world is ending
A new world begins
Let the water wash away your sins
Let the water wash away your sins
Let the water wash away your sins
Now that this whole world is ending
A new world begins
Let the water wash away your sins
