

Father John Misty - The Ideal Husband

```
Tom: C
                                                                resenting people that I love,
                                                                sleep in til two then doing shit,
                                    Afinação: D G C F A D
                                                                just stay in bed and later lie about it,
Intro: E G A Am
E G A Am
                        E G A Am
                                                                obsessing over graying hair,
Julian is gonna take my files
                                                                knowing just what people wanna hear,
Every woman that I've slept with,
                                                                binging on unearned attention -
every friendship I've neglected,
                                                                I've said awful things, such awful things
didn't call when grandma died,
                                                                        Am
                                                                and now, now it's out
I spent my money getting drunk and high
                                                                There!
I've done things unprotected,
                                                                         \mathsf{Am}
proceeded to drive home wasted,
                                                                and now, now it's out
bought things to win over siblings -
                                                                I came by at seven in the morning
I've said awful things, such awful things
                                                                seven in the morning, seven in the morning
and now, now it's out
                                                                I came by at seven in the morning
                                                                I said, baby, I'm finally succumbing
There!
                                                                said something dumb like I'm tired of running
and now, now it's out
                                                                tired of running, tired of running
(EGAAm)(2x)
                                                                Let's put a baby in the oven -
Julian, he's gonna take my files
                                                                wouldn't I make the ideal husband?
Telling people jokes to shut them up,
                                                                (EGAAm)(4x)
                                                                ( E )
