Fats Domino - Forever Forever

```
                              tom:
                       G
```

```
                 G                           D7
Let me be, the one you love, forever
                                      G
We could make, it work out fine, together
 G7                                        C
Say you love, just only me, my heart is yours to keep
G                             D7           G
Let me hold, you in my arms, forever, forever

                          D7
I just had, to let you know, I love you
                          G
I could never, place no one, above you
G7                                         C
You were meant, for only me, my heart is yours to keep
G                         D7          G
You and me, me and you, forever, forever
```
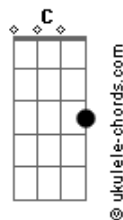

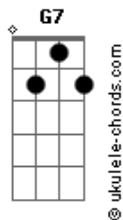

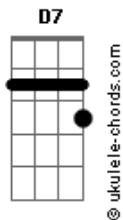

Acordes

```
[Solo]  G  D7  G  G7
         C  G  D7  G

                              D7
Let me be, the only one, forever
                                        G
My heart would sing, if we could be, together
   G7                                        C
You were meant, for only me, my heart is yours to keep
G                             D7          G
Let me hold, you in my arms, forever, forever

[Solo]  G  D7  G  G7

                                             C
Say you love, just only me, my heart is yours to keep
G                             D7          G
Let me hold, you in my arms, forever, forever
D7          G          D7          G
Forever, forever, forever, forever
```
