Wasurenaide

Oh my lord, it's gone!! What shall I do?

Pieces I had have fell apart Where do you belong?

Where should I aim for? Once you've lost sight it's left to fall apart

Interlúdio: D Dbm Gbm A 2X

Let's start it over again

Rebuild and combine all the pieces we have lost

To become one like a puzzle take it one at a time

When I stopped a rusted chain tangled me up

Tying my body onto the ground
As I sink underground I call your name
What can I do to see the day light once more?

Tear it apart and rip it off Sink down or swim up
Fight your way through Seek your way out
If you can not, you are left to drown deep inside
Chain tangled me harder, choking my neck

Interlúdio 2: D E Gbm Dbm

Tsuyogatteta boku no koto mimamotteta kimi wa iu
Ima koko ni iru yo
Itsu made mo kienai omoi wo tsunagitomerareta shokishoudou wo
Yobisamashite hashiridase ano hi no kodou wa
Boku to kimi no naka no uchuu de hibiite iru yo

Misery is nothing It is all up to your thoughts
And beliefs to bring in success within your life
Don't you compare yourself with other people
That's a waste of person you are so why not be honest to your emotion

Wasurenaide
All the promises made between us Broke in pieces and turned into sand
Let's escape from this colorless world to find myself
And tomorrow that we live
