

Felipe Abedala - I'm All Alone

```
tom:
                                   Dbm7
  I thought time would heal
All the caos you made
              Dbm7
And even with all this time
It's seems the pain won't go away
And i ask myself
What i've been doing wrong?
            Dbm7
That makes me wanna die
           Dbm7
Every night i look away and see
Aadd9
That i'm all alone
I don't know what to do
          Aadd9
Without you smile
          В
Without you face
         Dbm7
Withou you looking at me
    В
While I sleep
Dreaming abou all the things
I could have been
If all the world hadn't agains me
```

```
I just fell empytness
 'Cause theres a hole inside my chest
      Dbm7
  When they took you i lose my breath
I feel like i can go won
 Cause somthing is missing
  Aadd9
And i can move on
                Dbm7
And i ask myself
What i've been doing wrong?
           Dbm7
That makes me wanna die
            Dbm7
Every night i look away and see
Aadd9
That i'm all alone
I don't know what to do
          Aadd9
Without you smile
Without you face
         Dbm7
Withou you looking at me
     В
While I sleep
Dreaming abou all the things
I could have been
If all the world hadn't agains me
```
