tom:

Intro: Gbm E A D

[Primeira Parte]

Gbm E A D  
I tried to warm her heart, but man I wish I would've known  
Gbm E A D  
That no matter where it's winter, everywhere she goes  
Gbm E A  
She don't want me, don't need me, but I'm hanging on  
D  
All cause someone at one time did her wrong  
Gbm E A D  
Now, every time it rains, I see her tears turn into snow

[Pré-Refrão]

Gbm E  
She's so cold -blooded, got ice in her veins  
A D  
She can't feel nothin', Numbing' up the pain and trustin'  
Gbm E  
Nobody, and I can't blame  
A D  
She's holdin' on to somethin' that I can't change

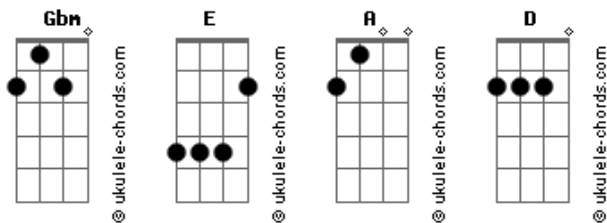

[Refrão]

Gbm  
She's so cold blooded  
E  
So damn cold blooded  
A D  
Man, she's so cold blooded, So damn cold blooded

[Segunda Parte]

Gbm E A  
All is said and done, she won't let her guard down  
D  
Down for anyone, Her love is on lockdown  
Gbm E  
Still I want to make her feel  
A D  
What it's like to trust for real
