

# Fever Ray - When I Grow Up

Tom: C

Intro: G F (2x)

G F  
When I grow up  
I want to be a forester

F  
Run through the moss on high heels

G  
That's what I'll do  
Throwing out boomerang

G F  
Waiting for it to come back to me

G F  
When I grow up  
I want to live near the sea

G  
Crab claws and bottles of rum

F  
That's what I'll have  
Staring at the seashell

G  
Waiting for it to embrace me

F  
I put my soul in what I do  
Last night I drew a funny man

G  
With dark eyes and a hanging tongue

F  
It goes way bad

I never liked a sad look

G F  
From someone who wants to be loved by you

G F  
I'm very good with plants  
When my friends are away

G  
They let me keep the soil moist

F  
On the seventh day I rest  
For a minute or two

G F  
Then back on my feet and cry for you

G F  
You've got cucumbers on your eyes  
Too much time spent on nothing

G  
Waiting for a moment to arise

F  
The face in the ceiling  
And arms too long

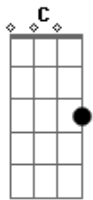

G  
I wait for him to catch me

(solo mesma base)

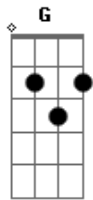

F G F  
Waiting for you to embrace me

(G F )
