Sugestão de arranjo:
C F Gm
Like a sound you hear
That lingers in your ear
But you can't forget
From sundown to sunset
It's all in the air
You hear it everywhere
No matter what you do
It's gonna grab a hold on you
            Cm
California soul
            G
California soul
             Dm
They say the sun comes up every morning
             Dm
And if you listen oh so carefully
The winds that ride on the high time
         F7
Whistle in melody
And so the people started to sing
                   Αm
And that's how the surf gave birth untold
              Cm
To California soul
             C F
