Tired, tired, you're all I want, yeah  
It'll be 'til the end, give me nothing I've ever tried  
It'll be the perfect sin, something like the truest lie  
Everywhere somehow, the only place I'll ever be  
As long as you hold me down, oh such a liberty

```

Bm           D           Em
Warm me with your touch, pressure from your fingertips
Bm           D           Em
Never be enough, I'll do nothing but submit
    
```

```

D           A           Em           G
I just wanna feel a thousand hands from you, only you
D           A           Em           G
Can you make me feel a thousand hands from you, only you?
    
```

```

D           A
Grab a hold of my soul and make me feel complete
D           Em           G
Within you'll be the one to show these goosebumps on my skin
D           A           Em           G
I'll wear my heart on my sleeve, I need you to feel the pain
D           Em           G
Would you take a bullet for me? Cause you know I'll do the same
    
```

```

Bm           D           Em
Warm me with your touch, pressure from your fingertips
Bm           D           Em
Never be enough, I'll do nothing but submit
    
```

Chorus:  
D A Em G  
I just wanna feel a thousand hands from you, only you  
D A Em G  
Can you make me feel a thousand hands from you, and only you?

```

D           A           Em
I just want to feel a thousand, from you
G
A thousand hands from you
D A D
Just wanna feel a thousand
Em
A thousand hands from you
Em           G
Feel a thousand hands from you
    
```
