

Fifth Harmony - Sledgehammer

Tom: G

If you could take my pulse right now
 It would feel just like a sledgehammer
 If you could feel my heart beat now
 It would hit you like a sledgehammer

I don't admit it
 I play it cool
 But every minute
 That I'm with you

I feel the fever and I won't lie
 I break a sweat
 My body's telling
 All the secrets I ain't told you yet

Oh oh
 I struggle to contain
 Whoa oh
 The love that's in my veins
 Oh oh
 And how it circulates
 Oh oh

If you could take my pulse right now
 It would feel just like a sledgehammer
 If you could feel my heart beat now
 It would hit you like a sledgehammer

You're taken over the beat of my body
 You just don't let up, don't let up
 You're taken over the beat of my body
 But you lift me up, lift me up
 If you take my pulse right now
 It would feel just like a sledgehammer

So close together
 So far apart
 You're turning me on
 And my fire's waitin' for your spark

Oh oh

I struggle to contain
 Whoa oh
 The love that's in my veins
 Oh oh
 And how it circulates
 Oh oh

If you could take my pulse right now
 It would feel just like a sledgehammer
 If you could feel my heart beat now
 It would hit you like a sledgehammer

You're taken over the beat of my body
 You just don't let up, don't let up
 You're taken over the beat of my body
 But you lift me up, lift me up
 If you take my pulse right now
 It would feel just like a sledgehammer

The truth is out
 No stopping now
 I'm getting closer
 I've had enough
 Undress my love
 I'm coming over

If you take my pulse right now
 It would feel just like a sledgehammer, oh
 And if you take my pulse right now
 It would feel just like a sledgehammer, hammer, oh
 (D)
 If you take my pulse

If you could take my pulse right now
 It would feel just like a sledgehammer
 If you could feel my heart beat now
 It would hit you like a sledgehammer

You're taken over the beat of my body
 You just don't let up, don't let up
 You're taken over the beat of my body
 But you lift me up, lift me up
 If you take my pulse right now
 It would feel just like a sledgehammer
