Finneas - Die Alone

```
Tom: C
                                                               F
Intro: F Am C
F Am C
                                                              Memories fillin' my cup
                                                                         C
                                                              It comes in flashes
                                                                                               Dm
                     Am
                                                              But when it passes and I see your eyes
F Am G
I wasn't lookin' for you
                                                                                                      F
         С
But you found me, you found me
                                                              I know there's nothin' I'll ever find better
                             Am
                                                                                Dm F
                                                                                              G
                                                              I think I'd rather die alone, together
Just as the smoke filled the room
     С
In the valley
                                                                    Am G C
                                                              'Cause I-I-I-I know that I will love you
                                                                                          Dm
                            Dm
                                 E.
                                                              G
                                                                  Am G C
You asked me, "Do you wanna die alone
Am G F
                                                              And I-I-I-I'm not letting go
                                                              G Am G C F
Or watch it all burn down together?"
                                                              If the sky darkens above you
                Dm F
                                       G
                                                                                                  Dm
                                                                   G
                                                                         Am G C
I said I'd rather try to hold on to you forever
                                                              I'll stay by your side in the afterglow
                                                              (Am G C F)
(Am G C F)
      Am G C
'Cause I-I-I-I know that I will love you
G Am G C Dm
G Am G C
And I-I-I-I'm not letting go
                                                                     G C
                                                                                                 F
                                                              'Cause I-I-I-I know that I will love you
G Am G C F
If the sky darkens above you

G Am G C Dm

I'll stay by your side in the afterglow
                                                              G Am G C Dm
                                                              And I-I-I-I'm not letting go
                                                              G Am G C
                                                              If the sky darkens above you
G Am G C
(F Am C)
(F Am C)
                                                                                                 Dm
                                                              I'll stay by your side in the afterglow
                                                              F
                     Am
                                                                                   Am
                                                              I wasn't lookin' for you
This was the place I grew up
          С
                                                              С
Now it's ashes to ashes
                                                              But you found me
