

Finneas - Hollywood Forever

tom:

Intro: D7M A D7M A

Bury me in Hollywood forever

Underneath a starry sky

Marry me in Hollywood forever

Don't pretend you'll never die

Like movie stars
In flashy cars

We talk like we know all the answers

Leatherette
Candy cigarettes

There's nothing sexy about cancer

In your lungs

You make dying sound less fun

I don't want an education

From anybody else tonight

And I don't want to change the station

Cuz you're the only one I like

At 2AM

Kiss me again

I don't ever wanna find out how it ends

[Ponte]

(D7M A D7M A)

Kiss me harder

Than I thought you'd ever

On the 4th of July

Missed you harder

Than I thought I'd get to

We just never had the time

Like movie stars
In flashy cars

We drive too fast right past each other

Leatherette
And dads in debt

We both have very pretty mothers

They look so young

And you make dying sound less fun

I don't want an education

From anybody else tonight

And I don't want to change the station

Cuz you're the only one I like

At 2AM

Kiss me again

I don't ever wanna find out how it ends

[Ponte]

(Bm7 Gbm G)

Ask me if it's alright

If you stay a little longer

Ask me if I'm alright

I might just tell you I'm a goner

If I say anything at all

Before I fall

Asleep

Acordes
