

Finneas - Life Moves On

Tom: E

She said "you always had a way with people"
 "A way of letting them leave"
 My hands could be the church to your fingers' steeple
 But you talk so mean
 She said "you know I love you"
 I said "remind me"
 Life moves on
 The way life does
 But some things are prettier
 The way life was
 Before we gave each other love, gave each other love
 Life moves on
 The way life does
 But some things are prettier
 The way life was
 Before we gave each other love, love
 And broken arms
 [Instrumental]
 Her silhouette
 Glowed so familiar
 Through
 That blood red curtain
 I stood with strangers, gazing

At the girl, that I once knew
 But I've grown uncertain
 She said "It's just a bad dream"
 But she looked too happy
 Life moves on
 The way life does
 But some things are prettier
 The way life was
 Before we gave each other love, gave each other love
 Life moves on
 The way life does
 But some things are prettier
 The way life was
 Before we gave each other love, love
 [Instrumental]
 Life moves on
 The way life does
 But some things are prettier
 The way life was
 Before we gave each other love, love
 Life moves on
 The way life does
 But some things are prettier
 The way life was
 Before we gave each other up
