

Finneas - Starfucker

tom:
Gb (forma dos acordes no tom de E)
Capostrate na 2ª casa

Pickin' all the petals off
Every flower that you come across
Your eyes are closed, your voice is soft
Honey, I'm afraid I'm lost
Sweep the glass up off the floor
Sell the clothes you never wore
Tell me that you wanted more
Are you sure?

You starfucker, I loved you
Against my better judgement
In the evenin', when you're leavin'
Your promises have lost their meanin'
I was yours before you were cool
(D7M Bm Em A)

Cross the names off a list
Cartier around your wrist

Acordes

I was such an optimist
But you are a fuckin' narcissist
The driver's pulling back around
I'm sorry, I'm so tightly wound
You think that you're so underground
(You think that you're so underground)
But you're so much less profound
You starfucker, I loved you
Against my better judgement
In the mornin', without warnin'
You said your life was borin'
I was yours before you were cool
(D7M Bm Em A Bbm-)
You starfucker, I trusted you
Against my better judgement
Watched the sunrise, tears in your eyes
If you'd just apologized, I'd still be yours for sure
But you're cruel (you're cruel)
