

Fire Department Club - Into Your Fire

Tom: D

Intro:

Bm
Bm
 Let your spirit free
 We don't need so much to live
 Dance in the space away

Bm
 Come here and inspire me
 Pull me into your gravity
 and don't let go as we play

Bm
 Make this your melody
 and paint it differently
 Draw it in your own way

Bm
 Half of eternity
 may go by as you blink
 We've got no time to waste

Bm
 Into your fire now
 promise you'll stick around
 and this will never fade

Can you taste this?
 C'mon and take me?

Bm Gbm G A G7 Bm Gbm7
 Into your fire now

Bm Gbm G A G7 Bm Gbm7
 Let's make it last somehow?

Bm
 Let your spirit free
 We don't need so much to live
 dancing the space away

Bm
 The Moon and Sun will collide
 Yeah we could stretch the time
 And bend it our own way

Bm
 Take me to stratosphere
 Fly us away from here
 As we sing
