Bm
It's me, it's me, you've come to take
My duality awakes

G D
By midnight time
A D
I could not see

If I were you or you were me

We play the game with skillful hands
And so I asked for your demands

G D
Give me your love
A D
give me your thumb
G D A
And he traced us back to where we begun

D
So the morning came

G
And swept the night away

Bm
As I was looking for

A
Away to disappear

D
Amongst the quiet things

G
And all these empty streets

Bm
I found a way, I found a way

A
To reappear

Em G
I'll follow you

Bm
Where you go

Em G
Yes, I'll be there

Bm
Just so you know

Em G
I need your condolence

Bm
And your trust

Em G
But I won't ask

D
Won't ask for much

There's a heavy load upon our backs

Of things we carry from the past

My guilt-filled mind

it tried to run

But it traced us back to where we begun
