

Five Finger Death Punch - A Little Bit Off

tom:

I'm a little bit off today, something down inside me's different

Woke up a little off today, I can tell that something's wrong

I'm a little thrown off today, there's something going on inside me

I'm a little bit off today, a little bit off today

(I'm a little bit off today, a little bit off)

See, I'm a little bit off today, I cannot put my finger on it

Got up a little off today, just to play that same old song

I don't really wanna try today, I see nothing in my reflection

I'm a little bit dry today, feel like I could die today

I'm a little bit off today, Feel like I could die today

Hey, yeah, hey, yeah

Hey, yeah, don't ya know? (I'm a little bit off)

Hey, yeah, hey, yeah

Hey, you gotta let it go (I'm a little, just a little bit off)

I got a little too high today, got lost inside a sea of madness

Crashed a little bit hard today, crashed a little too hard today

(Everybody sing)

Hey, yeah, hey, yeah

Hey, yeah, don't ya know? (I'm a little bit off)

Hey, yeah, hey, yeah

Hey, you gotta let it go (I'm a little, just a little bit off)

Hey, you gotta let it go (I'm a little, just a little bit off)

I'm a little pissed off today and there ain't nothing you can do about it

I'm a little bit put off today and I could not tell you why

Got a really short fuse today and everyone around me's fucking crazy

I'm a little ticked off today, a little pissed off today

(I'm a little bit off today)

I told a little white lie today, I smiled and told someone I loved them

I had to say goodbye today to someone that I love

I couldn't even cry today, I think my heart is finally broken

Didn't need a reason why today, I don't need a reason why today

Hey, yeah, hey, yeah

Hey, yeah, don't ya know? (I'm a little bit off)

Hey, yeah, hey, yeah

Hey, you gotta let it go (I'm a little, just a little bit off)

I got a little too high today, got lost inside a sea of madness

Crashed a little bit hard today, crashed a little too hard today

(Everybody sing)

Hey, yeah, hey, yeah

Hey, yeah, don't ya know? (I'm a little bit off)

Hey, yeah, hey, yeah

Hey, you gotta let it go (I'm a little, just a little bit off)

Hey, you gotta let it go (I'm a little, just a little bit off)

I'm a little bit off today

Something down inside me feels so different

Just a little bit off today

You can all fuck off today
