

Five Finger Death Punch - I Apologize

Tom: E

(com acordes na forma de Capostrate na 2ª casa D)

One day the shadows will surround me
 Someday the days will come to end
 Sometime I'll have to face the real me
 Somehow I'll have to learn to bend
 And now I see clearly

All these times I simply stepped aside
 I watched but never really listened
 As the whole world passed me by
 All this time I watched from the outside
 Never understood what was wrong or what was right
 I apologize?
 I apologize?

One day I'll face the hell inside me
 Someday I'll accept what I have done
 Sometime I'll leave the past behind me

For now I accept who I've become
 And now I see clearly

All these times I simply stepped aside
 I watched but never really listened
 As the whole world passed me by
 All this time I watched from the outside
 Never understood what was wrong or what was right
 I apologize?
 I apologize?

One day the shadows will surround me
 All these times I simply stepped aside
 I watched but never really listened
 As the whole world passed me by
 All this time I watched from the outside
 Never understood what was wrong or what was right
 I apologize?
 I apologize?
