

# Five Finger Death Punch - I Apologize

Tom: E

(com acordes na forma de Capotraste na 2ª casa D )

One day the shadows will surround me  
 Someday the days will come to end  
 Sometime I'll have to face the real me  
 Somehow I'll have to learn to bend  
 And now I see clearly

All these times I simply stepped aside  
 I watched but never really listened  
 As the whole world passed me by  
 All this time I watched from the outside  
 Never understood what was wrong or what was right

I apologize?  
 I apologize?

One day I'll face the hell inside me  
 Someday I'll accept what I have done  
 Sometime I'll leave the past behind me

For now I accept who I've become  
 And now I see clearly

All these times I simply stepped aside  
 I watched but never really listened  
 As the whole world passed me by  
 All this time I watched from the outside  
 Never understood what was wrong or what was right

I apologize?  
 I apologize?

One day the shadows will surround me  
 All these times I simply stepped aside  
 I watched but never really listened  
 As the whole world passed me by  
 All this time I watched from the outside  
 Never understood what was wrong or what was right

I apologize?  
 I apologize?
