

Flannel Graph - Apple Pie

 I told my dad I didn't love him anymore
 I grabbed all the cash and I ran and slammed the door
 And I spent it like, I spent it like a movie star
 I spent it right, I spent it right in all the bars
 I was so hungry, so thirsty, the ladies, they adored me
 And the men all wished to be me, they burned in all their jealousy

(Am F C G)

I had all the things that a man like me should buy
 I lived like a king in America with apple pie
 But my heart was small, my heart was smaller than before
 My fence was tall, to keep out the people that were wanting more

(Am F C G)

I knew a girl, Katie was her name
 She was quite the whirlwind and she wanted to stake my claim
 She said oh baby, oh maybe, you and me could get married
 And we'll settle down and bury all the warrants in our histories
 But all the party lights went out and I was all alone
 The amount of money that I had was the amount of love I was shown
 And I had nothing
 And I had nothing
 So, I gathered up all of my pride
 I hitch hiked to a town where my dignity had died
 He was waiting
 He was waiting
 He ran and kissed me
