

# Fleetwood Mac - I Dont Want To Know Intro

Tom: **B**

Tabbed by:Unkabonka  
Tuning:Standard

These opening chords sound good to me, also since they are 6th string root when you slide up to the open **E** you don't have to change your fingering. Or you could

be difficult and play **B** on the 2nd fret, but I don't think it sounds as full, plus you can hear him on the album slide from the 7th to 2nd.

This sequence is repeated twice at the intro, and again after the solo as the outro.

Also after each phrase ie. "Finally baby..." "The truth has come down now..." throw in the **B**, you'll figure out the rhythm.

(**B**)(**Gb**)(**E**)

## Acordes
