

# Fleetwood Mac - Say You Will

tom:

Intro: F Bb F Bb

[Primeira Parte]

Somethin' in you brought out somethin' in me  
That I've never been since  
That part of me that was only for you  
That kind of romance  
Comes only once, that kind of love  
That kind of fever dance  
That you love because you become someone else in an instant

[Refrão]

Say you will, say you will give me one more chance  
At least give me time to change your mind  
That always seems to heal the wounds, if I can  
Get you to dance

[Segunda Parte]

Somethin' in you put a hold on my heart

It's hard to believe now  
Here in the place that will never be dark  
I remember that place  
That kind of touch, electricity of love  
That certain kind of grace  
That you love because you become someone else in an instant

[Refrão]

Say you will, say you will give me one more chance  
At least give me time to change your mind  
That always seems to heal the wounds, if I can  
Get you to dance  
( F Bb C Bb C )  
( F Bb C F )  
( Bb C F C )  
( Bb C Bb C F Bb )

[Refrão]

Say you will, say you will give me one more chance  
At least give me time to change your mind  
That always seems to heal the wounds, if I can  
Get you to dance
