

The Fleetwoods - They Tell Me Its Summer

Intro: E G tom:

E
They tell me it's summer
But I know it's a lie
Cause summer's for laughing
So why do I cry?
They tell me it's summer
And the sun shines, it's true
But it just can't be summer
When I'm not with you

A
They tell me to call you
But I still have my pride
I remember the things you said

And all the nights that I cried
They tell me it's summer
So I look to the sky
But I can't see the sun shine
Cause there's tears in my eyes
The days don't grow longer
As in summer they do
It's the nights that are longer
Cause they're nights without you
The days don't grow longer (longer)
As in summer they do
It's the nights that are longer
Cause they're nights without you
