

Fletcher - All Love

tom: E (forma dos acordes no tom de D)
 Capostraste na 2ª casa

[Primeira Parte]

We started out as friends in the Lower East

Did a couple drugs at the house parties

Late nights in taxi cabs

Wish I could have 'em back

'Cause there's a lot of things that I never said

Now you're with somebody else in a different bed

You're happy, I could see

And that's so hard for me

[Pré-Refrão]

When you walk in the bar with someone holding hands

Intro: duce me to her, say I'm just an old friend

And you ask how I've been

I say I'm doing fine but I'm lying

[Refrão]

I take another shot, need the novocaine

Wish it would numb my heart way it numbs my brain

But it's all love

I don't feel it, but it's all love

The way you kiss her on her neck with that look in your eyes

Do it right in front of me kinda makes me wanna die

But it's all love

I hate the feeling, but it's all love

[Segunda Parte]

Should we forget about the past, is that how you cope?

Should we drink a little more of that rum and coke?

I don't know how to be

When she looks a bit like me

[Pré-Refrão]

When you walk in the bar with someone holding hands

Intro: duce me to her, say I'm just an old friend

And you ask how I've been

I say I'm doing fine but I'm fucking lying

[Refrão]

I take another shot, need the novocaine

Wish it would numb my heart way it numbs my brain

But it's all love

I don't feel it, but it's all love

The way you kiss her on her neck with that look in your eyes

Do it right in front of me kinda makes me wanna die

But it's all love

Hate the feeling, but it's all love

(D A Em G)

So I take another shot, novocaine

Wish it would numb my heart, numb my brain

But it's all love

The way you kiss her on her neck

With that look in your eyes

Do it right in front of me kinda makes me wanna die

But it's all love

I hate the feeling, but it's all love

Oh no, no, no, no, no

It's all love, baby

You know it's all love

It's all love, it's all love, it's all love

It's all love

It's all love

It's all love
