D  
 I believe in you and in our hearts we know the truth  
 D  
 I believe in love and the darker it gets, the more I do  
 D  
 Try and fill us with your hate and we will shine a light  
 D  
 And the days will become endless and never, and never turn to night  
 Bb G  
 And never, and never turn to night

[Refrão]

F  
 Then it's just too much  
 G  
 I cannot get you close enough  
 D  
 A hundred arms, a hundred years  
 D  
 You can always find me here  
 F  
 And, Lord, don't let me break this  
 G  
 Let me hold it lightly  
 D  
 Give me arms to pray with  
 D  
 Instead of ones that hold too tightly  
 D  
 We have no need to fight  
 D  
 We raise our voices and let our hearts take flight  
 D  
 Get higher than those planes can fly  
 D  
 Where the stars do not take sides

[Refrão]

 My held breath fills the room with love

 Hurts in ways I can't describe

 ( F G D )

 Funerals were held all over the city  
 D  
 The youth bleed in the square

 And women raged as old men fumbled and cried

 We're sorry, we thought you didn't care, oh  
 F G  
 And how does it feel now you've scratched that itch?

 How does it feel?

 Hubris is a bitch
