

# Florence and The Machine - As Far As I Could Get

Tom: C

Intro: 4x: Am G

In a celestial vault, I droop and drag with breath.

Cause I am unloved.

I went as far as I could get.

And I see their lives spark??

Wasting my goddamn time.

As the museum of death, and the mad man ??

I sail on new beginnings, as psychics taking chances.

And I see their lives sparks??

Wasting my goddamn time.

As far as I could get, I went as far as I could get

And see their lives spark??, wasting my goddamn time.

As there's fire in the temple, looking like a Disney/distant castle.

Went as far as I could get, past the girls late for rehearsal. x4

For a pirate on the left, and Jesus on the right.

And the pacific sweeps through like a bird in flight.

As far as I could get, I went as far as I could get  
And see their lives spark??, wasting my goddamn time.

Cause if I am unloved, I have unloved too.

Cause if I am unloved, I have unloved too.

I went as far as I could get, I went as far as I could get

I went as far as I could get, I went as far as I could get

Past the ceiling and the cement, the cemetery standing still,

Past the mountain and the monument, the houses and the hills,

Past the signs and the sirens, the sinners and the saints, I

went as far as I could get.

Past the hallowed and the horror, the humbles and the great, I

went as far as I could get.

Cause if I am unloved, I have unloved too.

I went as far as I could get, I went as far as I could get.

I went as far as I could get, I went as far as I could get.

But I'm not far enough yet.
