

## Florence and The Machine - Hospital Beds

```
A capella:
There's nothing to do here
So just lie and complain
In bed at the hospital
Coming and going
Asleep and awake
In bed at the hospital
I've got one friend laying across from me
    C G
                          Am
I did not choose \mbox{him} , he did not choose \mbox{me}
           G
                    Am Em
We have no chance of recovery
        C
Laying in hospitals
G Am
Joy and misery
Em C
Joy and misery
G Am
Joy and misery
Put out the fire, boys, don't stop, don't stop
Put out the fire on us
Put out the fire, boys, don't stop, don't stop
                    Em
Put out the fire on us
```
