

# Florence and The Machine - Light Of Love

[Primeira Parte]

And I came to, walking on the train tracks  
 How did I get here? And how do I get back?  
 I've been up all night, let's stay awake  
 Push it further, you know I'll never break  
 At some point in the party I thought my heart was failing  
 You said, "Hey, you're ok. You seem to be still standing"  
 Flashes appeared at the corner of my eyes  
 I saw the stars and I didn't ask why  
 Heard the voices and caught my breath  
 So close and yet so far from death  
 So close and yet so far from death  
 So close and yet so far from death

[Pré-Refrão]

Well the feeling was always too much for me  
 It always came too strong  
 I wanted to get it right so badly  
 That I always got it wrong  
 So you keep pushing on  
 You hope it won't be long  
 Till you could find the child you were  
 And find a way to get along

[Refrão]

Don't go blindly into the dark  
 In every one of us shines the light of love  
 Don't go blindly into the dark  
 In every one of us shines the light of love  
 Don't go blindly into the dark  
 In every one of us shines the light of love

In every one of us shines the light of love  
 Don't go blindly into the dark  
 In every one of us shines the light of love

[Ponte]

And oh my little sister, when the drugs were wearing off  
 I climbed into your bed and said, "I think I did too much"  
 In some ways that was simpler, being too fucked up to see  
 I didn't have to wake up to the world that was around me  
 And now we are awake and it seems too much to take  
 I want to close my eyes because I fear my heart will break  
 I want to look away, I want to look away  
 I want to look away, I must not look away

[Refrão]

Don't go blindly into the dark  
 In every one of us shines the light of love  
 Don't go blindly into the dark  
 In every one of us shines the light of love  
 Don't go blindly into the dark  
 In every one of us shines the light of love  
 Don't go blindly into the dark  
 In every one of us shines the light of love
