

# Florence and The Machine - Queen Of Peace

Tom: Db

(com acordes na forma de  
Capostrate na 1ª casa

Oh, the king  
Gone mad within his suffering  
Called out for relief  
Someone cure him of his grief  
His only son

Cut down, but the battle won  
Oh, what is it worth

When all that's left is hurt

Like the stars chase the sun  
Over the glowing hill, I will conquer  
Blood is running deep  
Some things never sleep

Suddenly I'm overcome  
Dissolving like the setting sun  
Like a boat into oblivion  
Cause you're driving me away  
Now you have me on the run  
The damage is already done  
Come on, is this what you want  
Cause you're driving me away

Oh, the queen of peace  
Always does her best to please  
Is it any use  
Somebody's gotta lose  
Like a long stream  
I'll bear all this echoing

And my love is no good  
Against the fortress that it made of you  
Blood is running deep  
Sorrow that you keep
