

Florence and The Machine - Queen Of Peace

Tom: Db

(com acordes na forma de
Capostrate na 1ª casa

Oh, the king
Gone mad within his suffering
Called out for relief
Someone cure him of his grief
His only son

Cut down, but the battle won
Oh, what is it worth

When all that's left is hurt

Like the stars chase the sun
Over the glowing hill, I will conquer
Blood is running deep
Some things never sleep

Suddenly I'm overcome
Dissolving like the setting sun
Like a boat into oblivion
Cause you're driving me away
Now you have me on the run
The damage is already done
Come on, is this what you want
Cause you're driving me away

Oh, the queen of peace
Always does her best to please
Is it any use
Somebody's gotta lose
Like a long stream
I'll bear all this echoing

And my love is no good
Against the fortress that it made of you
Blood is running deep
Sorrow that you keep
