

Florence and The Machine - What Kind Of Man

```
Tom: G
                                                            Red feet upon the floor
                                                            You do such damage, how do you manage?
I was on a heavy tip
Tryna cross a canyon with a broken limb
                                                            Tryna crawl in back for more
You were on the other side
                                                                         Fm
                                                            And with one kiss
Like always, wondering what to do with life
                                                                 Am Em
                                                            You inspired a fire of devotion
I'd already had a sip
                                                                         Am Em D
                                                            That lasted for 20 years
      Em
So I'd reasoned I was drunk enough to deal with it
                                                                       Am Em
                                                            What kind of man loves like this
You were on the other side
                                                                              Bm

Like always, you could never make your mind
                                                                        Am Bm D
                                                            What kind of man
 And with one kiss
                                                                        Am
