

Foals - Exits

tom:

Dm

[Primeira Parte]

Dm

Now the sea eats the sky

F

But they say it's a lie

G

And there's no birds left to fly

Dm

We'll hide out

Dm

Oh, the weather is against us

F

Houses on the ground

G

And flowers upside down

Dm

In our dreams

Dm

In the eye of the storm

F

In the land where you were born

G

We try to make no sound

Dm

We hide out

Dm

'Cause they watch us in sleep

F

And the language that we speak

G

And the secrets that we keep

Dm

In our dreams

In our dreams

F

G

In our dreams

Dm

In our dreams

In our dreams

F

G

In our dreams

[Refrão]

Dm

I said I'm so sorry

F

To have kept you waiting around

G

I wish I could've come up

Dm

I could've shouted out loud

But they got exits covered

F

All the exits underground

G

I wish I could figure it out

Dm

But the world's upside down

F

G

In a world upside down

[Segunda Parte]

Dm

Oh, to dream this all off

F

In the islands of the mind

G

The places they can't find

Dm

We'll hide out

And the black sky came down

F

And the cities underground

G

The flowers upside down

Dm

In our dreams

Oh, to meet you again

F

To pass you on the stairs

G

To see you everywhere

Dm

In my dreams

'Cause they watch us in sleep

F

And the language that we speak

G

Dm

And the secrets that we keep to ourselves

In our dreams

F

G

In our dreams

Dm

In our dreams

In our dreams

F

G

In our dreams

[Refrão]

Dm

I said I'm so sorry

F

To have kept you waiting around

G

I wish I could've come up

Dm

I could've shouted out loud

But they got exits covered

F

All the exits underground

G

I wish I could figure it out

Dm

But the world's upside down

I said I'm so sorry

F

That the world has fallen down

G

I wish I could do something more

Dm

I could shout it out loud

They got exits covered

F

All the exits underground

G

I wish I could figure it out

Dm

But the world's upside down

F

G

In a world upside down

(Back to days of yore when we could be sure, all year, all summer

Out where you could be found, I think I found our long lost brother

We should honor the breeze instead of screaming with each other

Back to days of yore when we could be sure, all year, all summer

Out where you could be found, I think I found our long lost brother

We should honor the breeze instead of screaming with each other

Back to days of yore when we could be sure, all year, all summer)
