

# Ellen Foley - Sad Song

tom:

It's a sad song  
 When love goes wrong  
 Leaves you feeling  
 Like you never felt before  
 Don't it hurt you  
 And introvert you  
 Leave you bleeding  
 Feel so low and insecure

Broken hearted melody  
 Oh what have you done to me?  
 I feel that time alone can say  
 Where I'll end up now

What a sad song  
 When loves goes wrong  
 Leaves you feeling  
 That you never felt before  
 Don't it shake you  
 Almost break you  
 Send you reeling  
 Til your rolling out of love

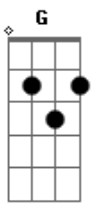

Broken hearted melody  
 Oh what have you done to me?  
 I feel that time alone can say  
 Where I'll end up now  
 (I want you save me)

Shalala, shalala  
 Shalala, shalala  
 Shalala, shalala  
 Shalala, shalala

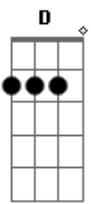

Broken hearted melody  
 Oh what have you done to me?  
 I feel that time alone can say  
 Where I'll end up now

What a sad song  
 When loves goes wrong  
 Leaves you feeling  
 That you never felt before  
 Don't it shake you  
 Almost break you  
 Send you reeling  
 Til your rolling out of love
