Primeira Parte:

Segunda Parte:

(Primeira Estrofe)

(Quarta Estrofe)

Ain't that the way it always starts?
A simple round of conversation
Became a shameful equation
I flip to station to station

Chase
All of those memories away
Save them all for another day
Don't you remember it was rain
That drowned you?

(Segunda Estrofe)

(Quinta Estrofe)

Hey,
Don't go and turn the other way
Don't say there's nothing more to say
Come on and hear me out

(Guitarra 1)

(Guitarra 2)

(Terceira Estrofe)

Wait
I wanna see if you could change
I wanna keep all I can take
I feel much better now

Hush, hush, settle down
Button up, don't make a sound
Shame, shame, go away
Come again some other day

(Sexta Estrofe)

Use me up, spit me out
Let me be your hand me down
Fame, fame, go away
Come again some other day

Primeiro Refrão:

Segundo Refrão:

You used to say I couldn't save you enough
So I've been saving it up
I started saving it up
And when you said I couldn't give you enough
I started giving you up
I started giving you up

You used to say I couldn't save you enough
So I've been saving it up
I started saving it up
And when you said I couldn't give you enough
I started giving you up
I started giving you up

(Riff 1 do Refrão)

(Riff 1 do Refrão)

You are not me
Arlandria, Arlandria
You and what army?
Arlandria, Arlandria
Oh God, you gotta make it stop

You are not me
Arlandria, Arlandria
You and what army?
Arlandria, Arlandria
Oh God, you gotta make it stop

Shame, shame, go away
 Come again some other day
 Memories keep haunting me
 Help me chase them all away

 Button up, don't make a sound
 Close your eyes, turn around
 Help me burn this to the ground

(Nona Estrofe)

Come now take the blame
 That's ok. I'll play the game
 I don't care it's all the same
 Watch you all go up in flames
 Use me up, spit me out

Let me be your hand me down
 Fame, fame, go away
 Come again some other day
