

Forever In Your Mind - Sweet Little Something

Tom: **E**

(com acordes na forma de B)
Capotraste na 5ª casa
(B, F#, G#, M, **E**)
When I met you didn't know what to do
I'm the kind of person you look through
From two places words apart
You're into boats and works of art
But you're still huggin' on my heart
Give me one chance 'cause I can do that dance
Maybe show you I'm advanced?
In how to be your man
Cause you know that everywhere I go
I kinda loose control of how you're making me feel

Girl would you be my, would you be my?
Sweet little something
Baby we'll get by we'll get by
Sweet little something
Give me just one night
So let me ask you
Girl would you be my, would you be my?
Sweet little something

Hey on that 1st date
So lost with words to say
Little things came into play
The way you smile on just one side
That sparkle in those pretty eyes
Makes me wanna blow my mind
May take a while but I can make that mile
Your hear your grease your style
The only reason I smile
One simple glance and that was all it took
You stopped my heart with just one look
You cast your line now I'm hooked

Girl would you be my, would you be my?
Sweet little something

Baby we'll get by we'll get by
Sweet little something
Give me just one night
So let me ask you
Girl would you be my, would you be my?
Sweet little something

Try my best we'll never rest
Take on the world and nothing less
No matter what you put me through
I'm gonna make my way to you
You're made for me
Just meant to be
Girl someday you're gonna see

[Jordyn Jones:]
You can keep on chasin'
Until my heart is racin'
Gonna keep you on your toes
See how the laughing goes
Mean it boy yo don't be frigh
And maybe I'll be your sweet little something

Girl would you be my, would you be my?
Sweet little something
Baby we'll get by we'll get by
Sweet little something
Give me just one night
So let me ask you

Girl would you be my, would you be my?
Sweet little something?
(you gotta be ohh you gotta be)
Oh?

You gotta be my sweet little something
Ohh oh oh oh oh
(You gotta be You gotta be)
My sweet little something.
