

Forfun - Complicated

```
Tom: B
                                                               Me, tell me
Chill out, whatcha yelling' for?
                                                                Why you have to go and make things so complicated?
Lay back, it's all been done before
                                                                I see the way you're
And if, you could only let it be, you will see
                                                                Acting like you're somebody else, gets me frustrated
I like, you the way you are
                                                                Life's like this you
When we're, drivin' in your car
                                                                Ab
                                                                And you fall, and you crawl, and you break
And you're, talking to me one on one, but you've become
                                                                And you take, what you get, and you turn it into
Somebody else, round everyone else
                                                               Honesty and promise me I'm never gonna find you fake it
                                                                No no no
You're watching your back, like you can't relax
You're tryin' to be cool, you look like a fool to
                                                                No no
                                                                Ab
Me, tell me
                                                               No no
                                                                No No
Why you have to go and make things so complicated?
                                                                Gb
                                                                No...(4x)
I see the way you're
Acting like you're somebody else, gets me frustrated
                                                                Chill out, whatcha yelling for?
                                                                Lay back, it's all been done before
Life's like this you
And you fall, and you crawl, and you break
                                                                And if, you could only let it be, you will see
And you take, what you get, and you turn it into
                                                                Somebody else, round everyone else
Honesty and promise me I'm never gonna find you fake it
                                                                You're watching your back, like you can't relax
                                                                You're tryin' to be cool, you look like a fool to
You come, over unannounced
                                                                Gb (deixe soar)
                                                                Me, tell me
Dressed up, like you're somethin' else
Where you, are and where it's at you see, you're making me
                                                                Why you have to go and make things so complicated?
Laugh out, when you strike your pose
                                                                I see the way you're
                                                               Acting like you're somebody else, gets me frustrated
Take off, all your preppy clothes
                           Gb
                                                                Gb
You know, you're not fooling anyone, when you've become
                                                                Life's like this you
                                                                And you fall, and you crawl, and you break
Somebody else, round everyone else
                                                                And you take, what you get,and you turn it into
You're watching your back, like you can't relax
                                                               Honesty and promise me I'm never gonna find you fake it
You're tryin' to be cool, you look like a fool to
