

Fossil Collective - Wolves

Tom: G

There's a false alarm
All the lights went down for miles around
And they taught us a lie, taught us how to survive
All we are is what we were told

CHORUS:

The wolves are coming out
Light a fire when you see them all arrive
Everybody gather around, form a line

VERSE:

In the truth of a lie, there's a calm in your eyes, a call to arms
As we lay on our sides, looking up to the sky,
All around they were closing in

CHORUS:

The wolves are coming out

Light a fire when you see them all arrive
Everybody gather around

Every hour we're losing time
Every hour we're losing time
Turn around

SOLO:
