

# Foster The People - Best Friend

Tom: Db

(com acordes na forma de Capostrate na 1ª casa C )

(When your best friends are strung out)

You'll do everything you can

'Cause you're never gonna let it get 'em down

(When you find it all around)

Yeah, it comes in waves, but it's hardest from the start

Feelings sleeping in the field again

But I can feel, I can feel

I can feel, it's beginning to end

Yeah, premonition smiling in the dark

I can see, I can see

I can see the story starting to arc

(Oh, oh, oh, oh)

It dries up

I've been a spoken word

I've been a river bed

I've been a rabid force

And let it flow up from within

Sometimes it feels like I only dream in black and white

(Ah, ah, ah, ah)

And colors so, oh!

(When your best friends are strung out)

Yeah, you'll do everything you can

Cause you're never gonna let it get 'em down

(When you find it all around)

Yeah, you say it's what you need

And hide your eyes when you're close to me

(When you feel up in the clouds)

Well, it comes in waves

But it's hardest from the start

Waves in theta slipping into dreams

I can feel, I can feel

I can feel the celestial beings

Welted pleasures leaving with a breath

I can see, I can see

I can see the beauty in the mess

(Oh, oh, oh, oh)

It dries up

I've been a river bed

I tried to salt the wound

I've carried more than I can

I feel I've got a lot to prove

Sometimes I feel like I only dream in black and white

(Oh, oh, oh, oh)

And colors so!

(When your best friends are strung out)

Yeah, you do everything you can

Cause you're never gonna let it get 'em down

(When you find it all around)

Yeah, you say it's what you need

You hide your eyes when you're close to me

(When you feel up in the clouds)

You oughta know

That I'm here no matter where you want to go

(With your head hanging upside down)

Well, it comes in waves

But it's hardest from the start

I am here, no matter where you are

I'm waiting here with open arms, no matter where you are

Sometimes you'll have to wait

Until it passes by like a satellite or a star

No matter where you are

Em, F, G, Am

(When your best friends are strung out)

You know it

Ooh, ooh

(With your feet up in the clouds)

Oh, yeah, you know it

Ooh, ooh

(When your best friends are strung out)

Oh, yeah, you know it

You oughta know

That I'm here no matter where you want to go

(In your head, hanging upside-down)

Yeah, you know it

That's how you know

When your best friends are strung out
