

## Frank Ocean - Close To You

```
tom:
                                [Intro] Eb D7 D7 Dm
               Fb
      Gm Eb Gb4 Bb Bb7
I'll be honest, I wasn't devastated
                      Gm
But you could've held my hands through this, baby
                    Bb
                        Bb7
Let my mind run underneath warm jets
                        Eb
I run my hands through what's left
But we're getting older, baby
Don't have much longer baby
Why am I preaching?
      Eb
To this choir, to this atheist
             Cm
                                Gb7
Just like mine, versions of these belong to you
After a while
They're keeping me close to you
And that is why
I never can say goodbye, no, no, no, I
```

```
I never can say goodbye
Even though the pain and heartache seems to
Follow me wherever I go
Try to hide the feelings but they
Ah
Always seem to show
Bb
You say "Turn around you fool
Ab
You know I love you more and more"
       Eb Cm
Tell me why is it so
     Gb7
I don't wanna let you go
Bb7
         Ab
                  Bb
I never can say goodbye, no no no no no {\tt I}
Bb7
            Cm
                  Bb
Never can say goodbye, ooh yeah yes
Bb7
         Ab Bb
I never can say goodbye, no no no
Bb7
               Cm
I never can say goodbye, no
No no no no no
Bh
Never can, never, never can say, nev-nev-never can say
Never can say goodbye
Nο
```
