

# Franz Ferdinand - Goodbye Lovers And Friends

Tom: C

Am Em  
Don't play pop music  
Am Em  
You know I hate pop music  
Am Em Am Em  
Just sing amazing godless grace

Am Em  
Don't wear bright colours  
Am Em  
You know I hate bright colours  
Am Em Am  
I never liked you for the way you dressed  
Em  
Anyway  
Am G F C  
Goodbye lovers and friends  
Am G F C  
So sad to leave you  
Am G  
When they lie and say  
F C  
"This is not the end?  
Am G  
You can laugh as if  
F C  
We're still together  
Am G F C  
You can laugh about it all

(Am Em )  
I hope you didn't bring flowers  
Hope you didn't write a poem  
Hope you remember every fight  
I know I could be noxious  
Or occasionally cruel  
But only to the ones  
I loved

Am G F C  
Goodbye lovers and friends

Am G F C  
So sad to leave you  
Am G  
When they lie and say  
F C  
"This is not the end?  
Am G  
You can laugh as if  
F C  
We're still together  
Am G C  
You can laugh about it all

( F - Am )  
Don't get inventory  
Don't fake your memory  
Don't give me virtues that I never had  
Don't get sychophantal  
We never were sentimental  
I know I took more than I ever gave

(Am - Em )  
I don't need to be forgiven  
But a moment from the living  
That's the only thing I ask  
Don't play pop music  
You know I hate pop music  
Just sing amazing godless grace

Am Em G A  
Goodbye lovers and friends  
Am Em G A  
So sad to leave you  
C Em
