

Franz Ferdinand - Goodbye Lovers And Friends

Tom: C

Am Em
Don't play pop music
Am Em
You know I hate pop music
Am Em Am Em
Just sing amazing godless grace

Am Em
Don't wear bright colours
Am Em
You know I hate bright colours
Am Em Am
I never liked you for the way you dressed
Em
Anyway
Am G F C
Goodbye lovers and friends
Am G F C
So sad to leave you
Am G
When they lie and say
F C
"This is not the end?
Am G
You can laugh as if
F C
We're still together
Am G F C
You can laugh about it all

(Am Em)
I hope you didn't bring flowers
Hope you didn't write a poem
Hope you remember every fight
I know I could be noxious
Or occasionally cruel
But only to the ones
I loved

Am G F C
Goodbye lovers and friends

Am G F C
So sad to leave you
Am G
When they lie and say
F C
"This is not the end?
Am G
You can laugh as if
F C
We're still together
Am G C
You can laugh about it all

(F - Am)
Don't get inventory
Don't fake your memory
Don't give me virtues that I never had
Don't get sychophantal
We never were sentimental
I know I took more than I ever gave

(Am - Em)
I don't need to be forgiven
But a moment from the living
That's the only thing I ask
Don't play pop music
You know I hate pop music
Just sing amazing godless grace

Am Em G A
