

Franz Ferdinand - Goodbye Lovers And Friends

Tom: C

Am Em
 Don't play pop music
 Am Em
 You know I hate pop music
 Am Em Am Em
 Just sing amazing godless grace

Am Em
 Don't wear bright colours
 Am Em
 You know I hate bright colours
 Am Em Am
 I never liked you for the way you dressed

Em
 Anyway
 Am G F C
 Goodbye lovers and friends
 Am G F C
 So sad to leave you
 Am G
 When they lie and say
 F C
 "This is not the end?"
 Am G
 You can laugh as if
 F C
 We're still together
 Am G F C
 You can laugh about it all

(Am Em)
 I hope you didn't bring flowers
 Hope you didn't write a poem
 Hope you remember every fight
 I know I could be noxious
 Or occasionally cruel
 But only to the ones
 I loved

Am G F C
 Goodbye lovers and friends

Am G F C
 So sad to leave you
 Am G
 When they lie and say
 F C
 "This is not the end?"
 Am G
 You can laugh as if
 F C
 We're still together
 Am G C
 You can laugh about it all

(F - Am)
 Don't get inventory
 Don't fake your memory
 Don't give me virtues that I never had
 Don't get sychophantal
 We never were sentimental
 I know I took more than I ever gave

(Am - Em)
 I don't need to be forgiven
 But a moment from the living
 That's the only thing I ask
 Don't play pop music
 You know I hate pop music
 Just sing amazing godless grace

Am Em G A
