Frente - Not Given Lightly!

Tom: C

```
   C      A
Hello my friend
     F                 G
It's morning, time to wake now
C           A
In body in mind
   F                    G
In twined will have to break now
C               A
But I need your flesh
     F                 G
Your warmth to stay beside me
C         A          F
Oh how I wish you could be
       G
Deep inside me
C             A
Show me your eyes
     F                 G
Your low most tender feelings
C                  A
And I'll give you mine
   F               G
Be truthful and revealing

         C
And it's you that I love
         Bb
And it's true that I love
         F                G
And it's love not given lightly
      C
But I knew that it's love
         Bb
And it's you that I love
         F                   G
And it's more than what it might be

E|--3----
B|----3--
```

```
C            A
When we're alone
  F              G
I cannot always face you
C          A
Maybe my mood
    F                G
Will let these arms embrace you
C                  A
But that doesn't mean
   F                 G
My love's somewhat diminished
C            A
Give me the time
   F                 G
To show our love's unfinished

(repeat chorus)

D                          F  G
And every word I say is true
C           A
What can I say
    F                G
The words destroy all meanings
C               A
There's only cliche's
   F                G
To get across this feeling

low E|-8\--  B|-1-1-1-1---

C          A
This is a love song
    F                 G
For John and Desha's mother
C           A
This isn't easy
  F                 G
I might not write another

(repeat chorus 2x)
```
