

## FRND - If It Hurts

```
Tom: Ab
            [Primeira Parte]
It's my fault again, it always is
Twist around my words, so they don't make sense
It's so complicating
Eb
You rope me in, then manipulate me
Up at three AM, I haven't heard from you
Imagine if I did these things to you
Now I'm contemplating
Is our love on fire fading?
               Db
Can you tell me how?
[Refrão]
                       Fm
How is this supposed to work, if it hurts
     Ab
                    Fh
If it hurts, if it hurts
When I try to use the words to explain
      Ah
                    Fb
But it just makes it worse
I tried and I tried to trust
 Ab
                        Eb
I gave and I gave but it wasn't enough
             Db
For what it's worth, how can I love you if it hurts?
[Segunda Parte]
You found my weakest spots and dig in deep
Show up with someone new just so I can see
I act out pathetic
Told you it hurts but you still don't get it
```
